Why HSBC Nifty Next 50 Index Fund?

- The scheme will adopt a passive investment strategy
- Invests in stocks comprising the Nifty Next 50 index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of Nifty Next 50 index by minimizing the performance difference between the benchmark index and the scheme
- The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks
- To create a corpus through generating inflation-adjusted returns to cater to long-term goals

Investment Objective

The scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the Nifty Next 50 index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of Nifty Next 50 index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks. There is no assurance that the investment objective of the scheme will be realized.
