### Why HSBC Medium to Long Duration Fund?

- Investing in instruments such that the Macaulay Duration of the portfolio is between 4 years to 7 years
- In the current scenario where interest rates are nearing the peak in this cycle, there may be opportunities to capture alpha through strategic overweight duration in this fund

### Fund Approach

- Actively managed fund investing across the yield curve in Govt. Securities and high quality AAA rated credits to generate alpha
- Dynamic duration management to seize potential upsides when interest rates are expected to soften while also reducing risks in an uncertain environment
- The major portion of the portfolio is invested in Gsecs due to favourable scenario
- Investments in a liquid portfolio to enable positioning changes based on evolving market scenario
- Managing duration through allocation in 7 -10 year part of the yield curve
